Comments

“ From our family to yours, it is with great respect and humility that we extend our heart felt and sincerest condolences to Maurice's parents, children and relatives.

Moe had been my classmate since elementary school.

Before leaving California as an adult when I would see him our conversations were always pleasant yet comical.

As a child Maurice often came to play on our block. Dodge ball, Kickball, Cartoon Tag, Hide and go seek, House, etc... I think its fair to say we all had an amazing childhood amongst each other.

Maurice invited me to my first house party that his mom threw for him I think in 3rd grade, maybe fourth when they lived on Filbert Street. I never forgot that moment because he was the only one that was able to talk my mom into letting me come out of the house that day to go to "a boy's" birthday party but of course the deal was.... as long as I got back before the street lights came on. :-) I remember party lines, and the late night prank calls... OMG! I think it helped that we always talked on the phone and he had 3-way calling on his phone... (That was a big deal back then...) Now that I am a parent I guess its only right to apologize for all of the many back to back phone calls us girls made to your house trying to catch up with him, Moe had love for us as we did for him.

I don't know, I guess we all have a story to tell... My memories with and of Moe are only those which are positive and it will stay that way for me.

To Moms, know that you are in our prayers and we send nothing but peace, positivity, and healing energy your way. Just know that your process is YOUR process... It's not for everybody to understand. Take all of the time that you need to heal and get through this time.

Peace and Blessings Be Unto You.
